Introduction

With 40 years history and roots imbedded in the most authentic Bohemian glassmaking tradition in Old Bohemia, now the Czech Republic. Our pedigree goes back to 18th century, and our techniques of hand drawing and hand cutting crystal are centuries old.

Iris Cristal Bohemia interprets present-day tastes and anticipates the future with a global language which - via the radiance of light - defines its values in terms of expertise, innovation and passion for beauty.

Light is thus intended as energy that illuminates all types of interiors via creative dynamism, giving rise to highly artistic lighting fixtures that enhance the quality of the glass, its transparency and its colours and shapes.

In Iris Cristal, skillful craftsmanship is combined with refined design, tradition and technology, becoming part of an age-old process or miracle of glass making intended as an alchemical assemblage of natural elements.

Expert artisans transform fire, sand, pigments and water into a supple matter which enables them to model creative shapes.

On the other hand, thanks to our own team of designers and our facilities in the Czech Republic and Spain, every six months we launch our own models of chandeliers which are recognized around the world because of their quality and unique design.

Our chandeliers can be seen in palaces, hotels, casinos, embassies, churches, mosques and prestigious houses all around the world. We have an active repertoire of hundreds of designs from every period of crystal history and we have been launching contemporary and modern designs for more than 10 years. Some designs like Flame or Apolo are very well known among the most important interior designers.

Creations by J. Torá

Design Department

Customized models. Able to personalise any model to client's wishes. We are constantly developing and releasing new models.

What is Essentials?

Essential is a unique catalogue. It is intended to be a sample of what Iris Cristal is capable of doing for their clients. With this catalog we want to show the creative capacity of our brand. We are manufacturers, and that sets us apart. We treat Bohemian crystal in a unique way and with extreme craftsmanship, together with a process of designing and creating new models every few months. We are capable of solving the most ambitious projects all over the world.
